

CREATING IBM CLOUD SERVICE

Team ID	PNT2022TMID44984
Project Name	Gas Leakage Monitoring &Alerting System for Industries

The screenshot displays the IBM Cloud Kubernetes Clusters management interface. The left sidebar contains navigation options: IBM Cloud, Kubernetes, Clusters (highlighted), Reservations, Helm catalog, and Container Registry. The main panel, titled 'Kubernetes clusters', includes a search bar with filters for 'Resource group' and 'Location'. Below this is an empty table with columns for Name, State, Location, Worker count, Created, Version, and Infrastructure. A 'Create cluster' button is located in the top right of the table area. Further down, a section titled 'Clusters' provides instructions: 'Start by creating a cluster that is just right to run your workloads.' and a 'Create cluster' link. The bottom of the image shows a Windows taskbar with various application icons and system information like the date and time (9:51 AM on 11/19/2022).
